

Thank you for considering a

design from Botanical

Elegance. Our goal is to

design botanically correct,

high quality displays that

stand the test of time.

That's why our creations

are designed from only

the highest quality

silks, dried and

preserved materials.

I hope you enjoy our work.

About this portfolio...

The items featured in the first three sections of this portfolio (Floral Arrangements, Table Accents and Trees & Bushes) are all custom designed, and are just a sample of the creative products we offer. We encourage you to provide us with your specialized requirements, including height, color and type of container, to create your product made-to-order. Please note that the items in the Succulents section are not custom made and may be ordered as shown or purchased directly from our showroom floor.

You can be certain our Botanical Elegance custom floral arrangements will provide years and years of enjoyment. They will add that little “something extra” that will make every house a home, and every space a unique experience.

Floral Arrangements

Purple Orchid Arrangement

Bring the exotic touch of Hawaii to your home or office with this Purple Orchid Arrangement. Orchids, which are among the most highly prized ornamental plants, are highly cultivated in the Hawaiian Islands, although they grow in most tropical regions throughout the world. The bright, inviting flowers would make a striking centerpiece in any room.

H

A. Rose Hip Berry Arrangement

For centuries, Rose Hip Berries have been used to prevent and treat for the common cold because of their high levels of vitamin C. These ripe, reddish-orange berries are gained from the Japanese rose that is widely grown throughout Europe. This arrangement is decorated in an orange pot that complements the vibrant color of the berries.

B. Mixed Artichoke Arrangement

This attractive floral display features bold foliage and bright, large flowerheads. Artichokes date back to the 12th century where they were cultivated in the Mediterranean countries by the Greeks and Romans. In the United States, almost 100% of the artichokes grown come from California. This stunning floral arrangement would complete any home or office environment.

C. Ranunculus and Red Tulip Arrangement

The delicate, paper-thin petals of the Ranunculus are often compared to origami masterpieces. Derived from the Latin name for “little frog”, the Ranunculus grows naturally in swampy ground. Paired with the boldness of Red Tulips, this piece is sure to make a statement in your home or office.

D. Red/Yellow Lily and Orchid Arrangement

For over 3,000 years, Lilies have been recognized as a symbol of purity and tenderness. In this arrangement, exquisite Red and Yellow Lilies are combined with Orchids, the largest family in the plant kingdom with over 25,000 naturally occurring species in the world. Many are sure to take notice of this fine piece of art.

E. Yellow Orchid/Vine Arrangement

Stunningly realistic, this Yellow Orchid/Vine floral is sure to brighten up any room. The vines, crawling over the edge of its decorative pot, create a feeling of the untamed wild found in nature. This piece would look impressive in any space.

F. Yellow Oncidium Orchid Arrangement

“Timeless beauty” is the best way to describe this Yellow Oncidium Orchid floral with natural moss-covered sticks. Found throughout the tropical regions of North and South America, its flowers blowing in the breeze have often been likened to butterfly wings. This arrangement will add a splash of color to any room.

G. White Phalaenopsis Orchid Arrangement

This large, white Phalaenopsis Orchid floral will add a touch of Asia to any room. Commonly called the Moth Orchid, this orchid design is highlighted by a Split Leaf Philodendron with bamboo and grapewood.

H. Orchid and Red Parrot Tulip Arrangement

Add a splash of color to your kitchen (or any room!) with this floral arrangement. This design features raspberry-colored Parrot Tulips surrounded by a mix of miniature greens, Phalaenopsis Orchids, saffron-colored Queen Anne’s Lace, miniature Snake Plants, raspberry-colored pods, and preserved Plumosa.

Miniature Orchids

These upscale and gorgeous Miniature Orchid arrangements remind us that orchids do not need to be large to be beautiful. With clean, distinguished lines and subtle curves, these arrangements make a simple yet elegant statement. They are available in three colors to fit any décor.

- A. Red Miniature Orchid Arrangement
- B. Purple Miniature Orchid Arrangement
- C. Lime Green Miniature Orchid Arrangement

D. Leopard Lily Planter

On grassy slopes of western North Dakota, one may be lucky enough to find the beautiful leopard lily. Now, you can bring this beautiful flower into your home or office no matter where you live. These red, orange, and maroon spotted lilies stand tall in this striking arrangement.

D

E

F

E. Red Amaryllis Flower Arrangement

The bold Red Amaryllis Flower Arrangement lets tropical beauty unfold in this stunning tabletop display. The Amaryllis is named after a shepherdess in classical Greek poetry. This display includes several stalks of bamboo to complement the Amaryllis.

F. Orchid Floral Arrangement

This Orchid Floral arrangement brings together the perfect harmony of color. This classic arrangement features white and black spider orchids, which have long been admired for their lovely scent.

G. Tropical Helicon Arrangement

This tall tropical floral arrangement demands to be noticed. Attention to detail makes this design so lifelike you'll swear that you can smell the warm ocean breeze just outside. The design contains hanging Heliconia flowers, tall Equisetum, Split Leaf Philodendrons, and preserved palm fronds.

G

These pages are but a small sampling of the creative ways your tabletops or special nook spaces can be artfully enhanced with Botanical Elegance table accents. These custom-made pieces can enrich the color palates and complete your desired effect for your décor.

Table Accents

Orange Poppy Arrangement

This west coast wildflower seems to radiate light from its golden flowers, which are a charming addition to any room. Quite appropriately, the Orange Poppy, also known as the California Poppy, is the state flower for the Golden State. Brilliant blossoms with a glossy sheen radiate in the arrangement, set in a modern pot.

A

B

A. Copper Grass Arrangement

This grass with an amber hue is also known as Indian Grass. Native to the United States, the yellow spikelets (seed heads) have white hairs, which make it look gold in the sunlight. This piece would be perfect near sunlight where it can shine its bright copper rays.

B. Succulent and Grasses Arrangement

This classic arrangement consists mostly of Wild Grasses, Tillandsia and Kalanchoe plants. Tillandsia's are without doubt one of the worlds most amazing group of plants because they have developed the ability to exist without any roots. Kalanchoe's are one of the most infamous representatives of the succulent family, originating in Madagascar. Grasses gently peaking out behind the strong succulents highlight this arrangement.

C. Grape Vine and Wood Arrangement

Dating back to biblical times, Grape Vines have long been admired as symbol of inspiration and of spiritual fertility. This eye-catching display includes a grape planter with real grape wood and synthetic grapes and vine. So realistic you'll want to pluck the grapes right off the vine!

C

D

E

D. Wild Grass with Silver Bowl Arrangement

You'll feel that you are in the uninhabited wild of the United States back in the days when the buffalo still roamed when you view this Wild Grass Arrangement. The Wild Grass is a nature-looking green color, and comes displayed in a contemporary silver triangular bowl. The grass, which extends beyond the bowl, adds to its untamed look.

F

E. Tall Wild Grass Arrangement

This Tall Wild Grass Arrangement is sure to give your room an energetic feeling. The lushness of the grass will provide a comforting feeling that your guests will get pleasure from. Bring a piece of the untamed wild inside with this piece, set in a modern black zinc tray.

F. Gourd Albiflora Head Arrangement

Preserved Albiflora Magnolia Leaves stand out in this stunning arrangement. Albiflora, which means "white flowers" is accompanied by Gourds, an inedible fruit with a hard rind. Gourds have been used for years as bowls and bottles. They also symbolize longevity and the ability to ward off evil spirits.

G. Star and Spider Succulent Arrangement

Consisting of Euphorbia, Kalanchoe, Agave, and Echeveria plants just to name a few, this arrangement is sure to be an attention grabber. Designed with clean lines, textures, and interesting colors, this arrangement is certainly a creative choice for a centerpiece. This piece comes planted in a black zinc container.

G

In the world of artificial permanent trees, Botanical Elegance is second to none! We can provide the perfect custom-made tree or bush from 4' to 10' using only the finest Manzanita Wood or Dragon Wood, along with the finest quality leaf stems, giving you the most real and natural looking product you could possibly hope for or expect!

Trees & Bushes

7 Mini Dracaena

Giving off a robust and tropical feeling, this Mini Dracaena would look impressive in any home or office. Deriving from the Greek term meaning “female dragon”, this plant is also known as the “Song of India.” Native of tropical West Africa and common in the Canary Islands, you can almost hear the ocean waves crashing upon the shore when you stop to admire this piece of art.

B

C

A

Bamboo Bushes

These naturally colored Bamboo Bushes would be a fantastic accompaniment to any décor. Made from the finest Manzanita Wood, you can own a piece of China with any of the three varieties available.

- A. 6' Yellow Mini Bamboo
- B. 4' Red Micro Bamboo
- C. Yellow Mini Micro Bamboo

D. 5' Pittosporum Bush

This elegant bush made with Dragon Wood is native foliage to New Zealand. Its twisted stems and vibrant colors will create a décor in your home that is pleasing to any complementary surroundings.

E. 7' Black Aralia

Originating in the South Pacific, the Black Aralia is a strongly upright, sparsely branched plant with dark green leaves. The lacy leaflets have a unique wrinkled surface texture. Standing tall, this plant will look impressive in an entryway of your home or office.

D

E

F

F. Podocarpus Bonsai

Better known as the Chinese Yew, the Podocarpus Bonsai's branches appear to be reaching out towards the heavens. This plant is an evergreen conifer native to China and Japan. Many lovers of the rich culture of the Bonsai spend years of caring for and pruning their specimen for the highest quality of appearance. Our flawless creation will give you years of pleasure without the hassle of high maintenance.

A

B

C

A. 5 'Rhaps Palm

Rhaps Palms, also known as Lady Palms, have been raised in Japan for hundreds of years. This miniature palm has dark green fan-like leaves and have been known to reach up to 15-feet tall in their natural habitat. This plant, which would look good in any room, exudes elegance and style.

B. Preserved Two Ball/One Cone Topiary

Bring a touch of class into your home or office. Topiaries date back to ancient Roman times and have historically been associated with the gardens and grounds owned by wealthy Europeans. Named after the Greek word meaning "ornamental gardening," this topiary is designed with a two ball, one cone shape, which is a traditional topiary form.

C. 4 'Rubber Plant Tree

The tree form of the India Rubber Plant, this Rubber Plant Tree shines and sparkles with its distinctive glossy leaves. Growing as tall as 50 feet in nature, this tree is among the oldest plants used as houseplants worldwide. Its large, gleaming leaves will be sure to reflect light beautifully in a room.

D. 6 'Agave

Agaves are spread throughout the temperate and tropical areas of the world, and now you can bring one to your home or office. Stemming from the Greek word meaning "of kings and heroes", this plant will radiate a royal feeling in any room it graces its presence in.

D

E

E. 6 'Silver Wild Grass

This sparkling Silver Wild Grass is a robust, upright, dense grass that grows in very tight clumps. The leaves are upright at the base and arching at the tip and provide an attractive arching effect. Silver Wild Grass is known as the royalty of the grass kingdom because of its billowy texture, silky tassels and different heights and colorations.

F. 7 'Copper Wild Grass

Copper Wild Grass is a warm season clump forming native grass with feathery plumes. It is known to be a host plant for Skipper butterflies. This arrangement will create tall seas of waving amber hues to be enjoyed by all.

F

A

B

C

D

A. Papyrus Umbrella Plant

Having long triangular leafless stems resembling an umbrella-like cluster of grassy leaves, the Papyrus Umbrella Plant is a unique piece that would look charming on a table in your home or office. Papyrus originates from the floodplains of Egypt and was the source of the first paper. Your friends, family and co-workers alike would enjoy setting their eyes on this breathtaking piece.

B. Ming Aralia Bush

This bush succeeds in creating a full and healthy look to your living space. Its natural trunk has a virtually true-to-life look, which is something to marvel. The Ming Aralia's willowy branches and feathery leaves emit a tropical ambiance.

C. Coleus Plant

The Coleus Plant, native to Africa and Indonesia, features beautifully colored and patterned leaves. This plant, with its contrasting green and maroon colored leaves will be sure to add a touch of class to any room it adorns.

D. Jade Plant

This succulent can often reach up to 5-feet tall in the wilderness. Commonly found in the Eastern Cape of South Africa, it is also commonly called the Dollar Plant or Friendship Tree. Nestled in a decorative pot, this plant is sure to create a welcome feeling in any home or office.

E. Preserved Purple Eucalyptus

Bring a touch of the wilderness indoors. Native to Australia, this preserved purple Eucalyptus bush will add an element of natural, uncomplicated beauty to any room. It is perfect as a standalone piece or as a focal point surrounded by other natural décor.

A

A. 15 "Preserved Bonsai Tree

Bonsai (pronounced bone-sigh) trees have long been described as the perfect union between art and nature. The term actually represents a variety of small trees or shrubs planted in decorative trays. It's an attractive piece that can be enjoyed year-round.

B. 3 'Sansevaria

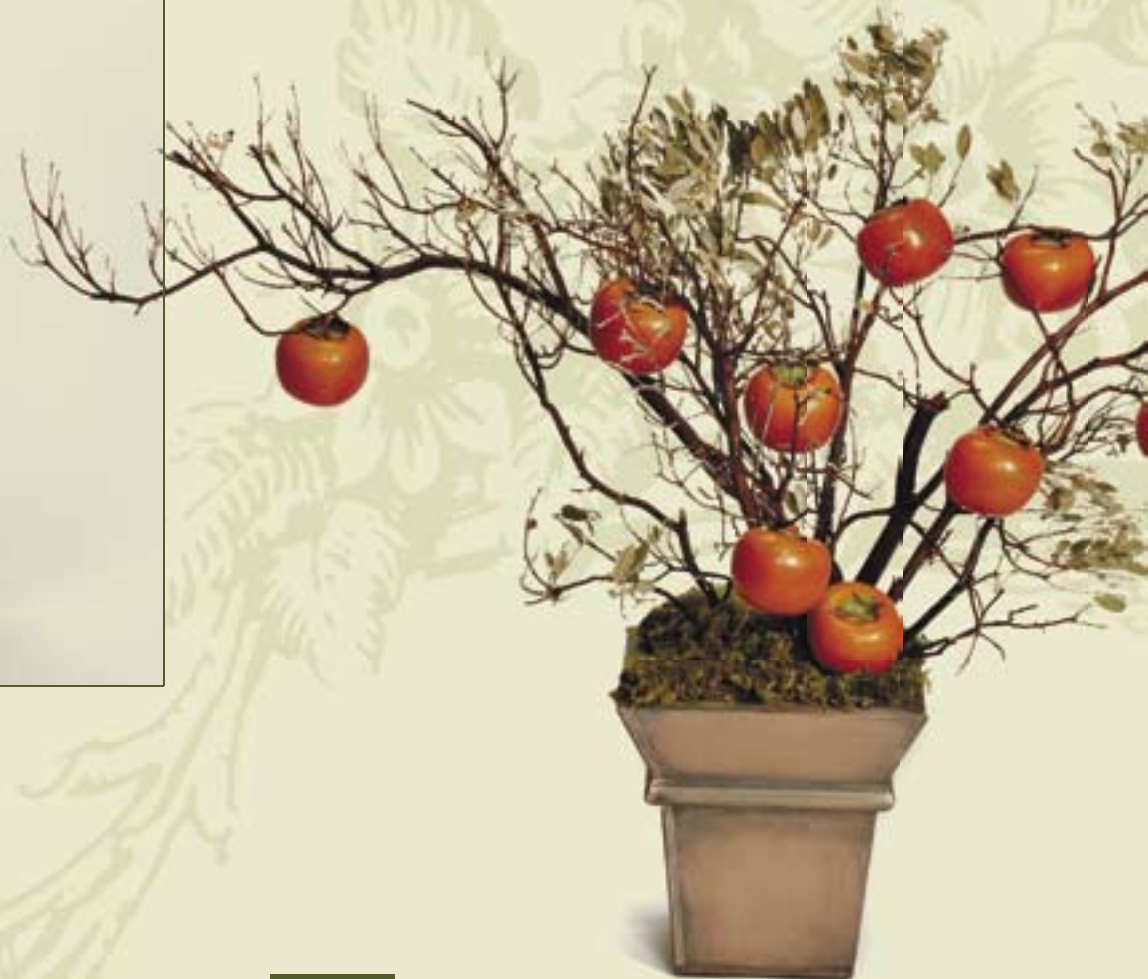

Sansevarias are a group of about 60 Agave-related species from India, Indonesia and tropical Africa, with only a few species being common as houseplants. This particular Sansevaria features its characteristically large, fleshy leaves that extend straight up into the sky. Also available in 4' height and green or yellow variegated.

C. Persimmon Plant Arrangement

The ripe, luscious persimmons on this arrangement will make you want to pick one off and take a juicy bite! This Persimmon Plant also features spawning branches and delicate, yellow flowers. The warm orange glow of this plant will glisten radiantly in any room.

B

C

D. Newport Palm

Make a statement in your home or office with this preserved Newport Palm tree. Palms have long been associated with luxurious living and exotic destinations. It is a wonderful complement to any interior design style set to whisk the visitor away to places unseen. Available in 4' to 10' heights.

A

B

A. 10' Black Olive Tree

Standing strong and proud, the Olive Tree has offered its branches as a symbol of peace and respect since the early ages. In your home, this Black Olive Tree on natural Manzanita Wood will also add a natural sense of peace and serenity to any room. For the home with many guests it says, "Welcome."

B. 10' Pepper Tree

Native to South America, this Pepper Tree is created on natural Manzanita Wood. In the wild, the branches and leaves of the Pepper Tree grow to form a dense canopy on the forest floor below. In your home, it will provide a warm haven to enjoy a cup of tea and a favorite book. Planted in a black and brown china bowl, it is sure to complement most any décor.

C. 5' Podocarpus Bush

With its realistic appearance, this Podocarpus Bush is made with the finest Dragon Wood. A member of the conifer family, this bush is traditionally grown as garden trees or trained into hedges. These bushes have a rich history, first appearing between 105 and 45 million years ago. The Podocarpus is sure to give years of beauty to your home or office space.

D. 10' Podocarpus Tree

This Podocarpus Tree stands tall as one of New Zealand's most popular ornamental trees. Its timber was once prized by the Maori for the building of their powerful war canoes. Yours will make an equally powerful statement in any foyer or entryway.

C

D

A

B

A. 8' Fiddle Leaf Tree

Often reaching up to 40 feet in nature, the Fiddle Leaf Tree is a member of the genus ficus. It is commonly named for its broad, flat leaves that resemble fiddles or violins. The tree is designed from silk fiddle leaf foliage blended into natural Dragon Wood.

B. 8' Ming Aralia Tree

You'll feel like you're being whisked off to Asia by owning one of these Ming Aralia Trees to enhance your home or office. This gorgeous tree features lush, green leaves sprouting out of authentic Dragon Wood. This stately tree is sure to turn heads.

D

C

C. Dracaena Palms

Dracaena Palms, which actually aren't palms at all, are related to Yuccas and Agaves. Often listed high among the best household plants, this Dracaena Palm will take the aesthetic intensity in your home or office to a new level. Available in 5½', 8' and 10' heights.

D. 8 'Dracaena Marginata

This Dracaena Marginata, also known as the Madagascar Dragon Tree, has been a favorite amongst decorators for years. Its twisted stems and starburst foliage create a unique vision unlike any other plant. The silk leaves are designed into all-natural Dragon Wood stems for incredible realism.

A

B

C

A. Bamboo Grass

The tall, eye-catching Bamboo Grass is typically an ornamental grass. The stem is woody and has expanded nodes, making it ideal for manufacturing uses such as fishing poles and garden stakes. In its natural state, the fine-textured, willowy foliage blows in the slightest breeze and invites people to touch it. Set in a contemporary pot, this piece is sure to be admired. Available in 60" and 78" bundles.

B. 6' Three-Stem Yucca

This distinct plant features UV protection so it can be placed indoors or outdoors without the colors fading! Yuccas are quickly becoming more popular in the United States not only for the aesthetic value they can add to your home or office, but also for the dietary benefits. Already a common component in Latin American cuisine, the Yucca can be easily substituted for potatoes in soups and stews. The thick brown skin of the Yucca closely resembles a tree's bark. Available in 3½', 5' and 6' heights, these Yucca stems can be purchased individually or as a set.

C. 7' Ponytail Palm

The Ponytail Palm is indeed not a palm, but is in the Agave family. Also known as the Elephant-Foot Tree because of the large base of its trunk, they grow in semi-desert areas in southeastern Mexico. The unique features of this plant are sure to make for interesting conversations. Also available in 8' height.

D. 7' Bamboo Tree

Although they can grow as tall as 120 feet and are as hard as wood, Bamboo is actually a member of the grass family. Throughout time, bamboo has been coveted for its use in building everything from living quarters to musical instruments. This natural specimen is perfect for the den or study.

These items are not custom made and can be purchased right off our showroom floor. We carefully select our succulents for their life-like qualities. If you are looking for a great way to bring the outdoors in without the mess or maintenance problems, these are a wonderful alternative.

Succulents

Century Plant

Also known as the American Aloe, although not related to true aloes, the Century Plant was a source used to provide Native Americans with soap, food, fiber, medicine, and weapons. Called a Century Plant because it only blooms once in its lifetime, this plant is sure to warm up any living space.

A

B

C

A. 3 'Snake Plant

This plant is commonly called a Snake Plant because of the tall, fleshy shape of its leaves. The strong fibers produced from this plant were once used to make bowstrings. The long, linear leaves are usually green with contrasting darker green stripes, producing an appealing look.

B. Large Succulent

The Large Succulent used for this piece is the Aeonium. It is a genus of about 35 species of succulent, subtropical plants of the family Crassulaceae. Mainly they live at the Canary Islands, but some are found in Morocco and Eastern Africa. The rosette-shaped leaves of this succulent are rich in color.

C. 3 'Aloe

The thick, fleshy leaves of this stemless Aloe plant has long been used for medicinal purposes. Its dense gel is an ideal home first aid cure for sunburns, wounds, and dry skin. The Aloe plant, indigenous to East and South Africa, would look exquisite in any room.

E

D

D. Large Succulent Arrangement

Kalanchoe is featured in this arrangement of Large Succulents. Kalanchoe plants are cultivated as ornamental houseplants and rock or “cactus” garden plants. They are vastly popular because of their ease of propagation and low water requirements. This piece is set in a fashionable planter which enhances the beauty of the arrangement.

E. 4 'Dracaena Draco

So lifelike, you'll swear it's real. This Dracaena Draco is designed from synthetic material and coated with a special powder that gives it a realistic look and texture. Also known as the “Dragon Tree”, its red sap was often used by ancient Egyptians in the embalming process – a great story to share with admirers of this work of art.

A

B

C

Agaves

These Agaves feature a large rosette of thick fleshy leaves, ending in a sharp point and with a spiny margin. The stout stems are usually short and the leaves appear to spring from the root. These agaves make a powerful statement and are available in three different varieties.

- A. Silver Agave
- B. 2' Agave
- C. 41'' Agave
